

No Pain, No Gain, No Sweat Approach to Slimming & Anti-Aging

At Beauty Corp, the adage of 'no pain, no gain' is a thing of the past, with regards to beauty, slimming, fitness and body treatments. Combining years of experience, with the latest in technology, Nina Kalliopohja and the team at Beauty Corp bring to The Hague a whole new approach to slimming and anti-aging treatments.

First and foremost at Beauty Corp is personal attention. Without a personal analysis and personal guidance in the use and application of the technology at their disposal, no treatment offered can be expected to deliver the promised results. Everyone is unique, and discovering the uniqueness of each client is at the core of what Beauty Corp can offer. Beauty Corp offers a wide range of services and treatments in the field of beauty, fitness and wellness. Services and treatments that take into consideration the fact that for many, time - or rather, the lack of it - is an issue that stands in the way of accomplishing goals regarding health and well-being. Today, with the revolutionary technology behind Power Plate®, time need no longer be a factor in preventing you from fulfilling your desires for looking, and feeling, better.

Based on technology originally developed for the Russian Space Programme, aimed at preventing the wasting of the astronauts' muscles and bones in space,

Power Plate® has evolved into a treatment for anyone who wishes to improve their muscle tone, fitness, figure and overall health. Power Plate® uses the principles of Acceleration Training™ to stimulate the body's natural response to vibration. These vibrations transmit waves of energy throughout the body, activating muscle contractions between 25 and 50 times per second, enhancing overall performance in sessions as short as 15 minutes a day, 3 times a week. Under the guidance of a personal trainer, trained in the use of Power Plate®, Beauty Corp ensures that the available technology is used to its best results in the areas of physical therapy, longevity and anti-aging, sports rehabilitation, beauty and wellness, alternative medicine, fighting osteoporosis and far more. Areas in which regular independent studies have shown it has had positive effects. At Beauty Corp, the effects of Power Plate® can furthermore be enhanced with the application of related

technologies such as a Power-Wrap®, Body Sculptor® and the Power NARL 517 Method to provide effective, visible and lasting results in less time than would otherwise be spent on exercising and dieting.

Additional treatments at Beauty Corp include permanent hair removal with the latest technology, as well as permanent make-up and anti-aging and facial treatments - including the Madonna treatment, otherwise referred to as an oxygen facial. Its founder, Nina, has combined her passions and background as a beautician and fitness trainer to provide a centre in which complete solutions can be offered to men and women who are looking for a way to improve their fitness and well-being that can fit it into their busy schedules. She tells that it is in fact possible to come in for a session and to leave 20 minutes later to go straight back to work... all these benefits without breaking a sweat!
